/ BOOKMATCH & ENDMATCH

The Estuario, Calacatta, Calacatta Gold, Blanco Carrara and Nero Marquina models have the possibility of being presented with a Bookmatched effect (mirror effect) the same way the natural marble can be directly extracted from the quarries. For each model there exists a Reverse option (referred to with an "R") which enables to create boockmatched options.

The Endmatch is a very special feature that the design of the Calacatta, Calacatta Gold, Blanco Carrara and Nero Marquina own. Using the same slab just turning it 180°, it's possible to obtain continuing vein with endless pattern.

Los modelos Estuario, Calacatta, Calacatta Gold, Blanco Carrara y Nero Marquina permiten la posibilidad de presentarse con efecto Bookmatch (efecto espejo) de la misma forma que el mármol natural es directamente extraído de una cantera. Para cada modelo se ha creado una versión reversa (marcada con "R") para presentar efectos Bookmatched.

El Endmatch es una característica muy especial que tienen los diseños de los modelos Calacatta, Calacatta Gold, Blanco Carrara y Nero Marquina. Usando la misma tabla, sólo girándola 180°, puede obtenerse un patrón de vena continua sin fin.

DESIGN VARIANTS IN 6MM / VARIANTES DE DISEÑO EN 6MM

To avoid the repetition of design in some Neolith models of 6 mm thickness, variants have been created which will be sent in a random manner once these colors are ordered, without the possibility of choosing the specific design, this does not apply to other models like Estuario for example, you are still able to choose between 1 or 5.

Para evitar la repetición de diseño en algunos modelos Neolith de 6 mm de espesor, se han creado variantes que se enviarán de forma aleatoria, en los pedidos de estos colores, sin la posibilidad de elegir el diseño como por ejemplo ocurre con otros modelos como Estuario 1 o 5.
